May 8, 1997

Dear Ernest:

Please accept our most heartfelt thank and congratulations on the introduction of the Religious Freedom Amendment which Christian Voice fully supports.

As you may know, Christian Voice has been a strong advocate of returning voluntary prayer in public schools since our founding in 1978. We were instrumental in the introduction of and spearheaded the lobbying effort for President Reagan's Constitutional Amendment to restore voluntary prayer in 1983.

We look forwards to working with you in this vital battle to restore religious freedom in our society in order to truly make America one nation under God. Please do not hesitate to call on us if there is anything we can do to help you advance this critically important initiative.

Thanking you again for your outstanding leadership in defending the religious freedom rights of all America, and wishing you God's richest blessings, I remain

Your sincerely,

Gary L. Jarmin  
Legislative Director
